The day will also feature a silent auction of a Steve Barton signature painting with his signature "WAVY" frames. Created by Steve in 1999, the purpose of the Wavy frame is to enhance the sense of movement in the paintings by extending the wavelike feel to the frame itself. Together, the frame and painting invite the viewer into the art. Barton's work is on display in more than 35 galleries, covering over a dozen states including Hawaii, New York, Florida and even Puerto Rico.
